PROFILE SUMMARY:

Full stack Software Engineer specializing in the MERN stack (MongoDB, Express.js, React, Node.js) with hands on experience building scalable web applications and RESTful APIs. Proficient in implementing secure authentication, role based access control, and backend middleware. Strong problem solving skills with a passion for clean code, continuous learning, and contributing to high impact engineering teams.

EDUCATION:

- **B.Tech** in Electrical Engineering
Jaipur Engineering College & Research Centre, Jaipur CGPA: **8.20** | 2020 – 2024

TECHNICAL SKILLS:

- **Programming Languages:** C, C++, JavaScript
- **Web Technologies:** HTML5, CSS3, JavaScript (ES6+), REST APIs
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Tailwind CSS
- **Database:** MongoDB, MySQL
- **Tools:** GitHub, Visual Studio Code, MongoDB Compass, MySQL Workbench, Postman

SOFT SKILLS: Problem Solving, Debugging, Teamwork, Adaptability, Quick Learner

CORE CS: Data Structures & Algorithms, OOPs, DBMS, Operating System, Computer Networks

WORK EXPERIENCE:

Software Engineer Intern - Full Stack Development

Centre for Development of Advanced Computing (C-DAC), Jaipur

Sep 2025 - Present

Tech Stack: **MERN | JavaScript | REST APIs | Git | HTML | CSS**

- Built and enhanced full stack web applications using the MERN stack, developing reusable React components and RESTful APIs for efficient client server communication.
- Implemented responsive React.js interfaces and secure API endpoints, following best practices for request handling and error management to support application functionality and data flow.
- Designed MongoDB schemas, performed query optimization, and improved overall application performance.
- Gained practical exposure to the SDLC, version control (Git), and participated in code reviews, debugging, and optimization efforts within a collaborative team environment.

PROJECTS:

StudyAdda - Online Learning Web Application 🌐 [Live](#)

Jan 2026 – Feb 2026

Tech Stack: **React.js, Node.js, Express.js, MongoDB, JWT, REST APIs, Cloudinary, Razorpay, MongoDB Atlas**

- Developed a full stack MERN ed tech application supporting course creation, enrollment, and content delivery.
- Implemented JWT based authentication, role based authorization and secure middleware to protect APIs and routes.
- Designed 20+ RESTful APIs and integrated Cloudinary for media management and Razorpay for secure transactions.

Voxtalk - Real time Language Learning & Chat Platform 🌐 [Live](#)

Nov 2025 – Dec 2025

Tech Stack: **React.js, Node.js, Express.js, MongoDB, JWT Authentication, GetStream.io (Chat & Video SDK), TanStack Query, Tailwind CSS, DaisyUI, Lucide React (Animated Icons), REST APIs**

- Built a secure MERN application with JWT authentication, HTTP only cookies, and protected APIs.
- Integrated real time chat and video calling using Stream SDKs and without managing custom socket infrastructure.
- Developed scalable REST APIs and optimized UI performance using TanStack Query and Tailwind CSS.

Quick Stay - Hotel Booking Web Application 🌐 [Live](#)

Oct 2025 – Nov 2025

Tech Stack: **React.js, Node.js, Express.js, MongoDB, Cloudinary, Clerk Auth, REST APIs**

- Designed and implemented secure RESTful APIs for hotels, rooms, bookings, and users with authentication and protected routes using Clerk and custom middleware.
- Developed real world booking workflows including availability tracking and booking history.
- Followed clean backend architecture (MVC) and production ready environment configuration.

ACHIEVEMENTS & CERTIFICATIONS:

- Solved 250+ coding problems across platforms
- GATE 2025 Qualified - Computer Science & Engineering
- Problem Solving through Programming in C - NPTEL (IIT Kharagpur)
- Data Structures and Algorithms - CodeHelp by Love Babbar
